# CHAPTER 1 - SPORT GOVERNANCE

## INTERNATIONAL COMPETITIONS

[CR]

All competitions announced as international must be governed by the rules of the ICF.

Competitions organised by a National Federation, or its affiliated associations are regarded as international if foreign athletes / teams are invited.

Canoeing competitions in regional, continental, and multi-sport Games must be organised under the ICF rules for World Championships for that discipline.

The Olympic events should be used as a base for the competition programme in continental games.

The organisation and programme of canoeing in multi-sport games on a world level must be approved by the ICF and for continental level by the relevant continental association.

## INTERNATIONAL COMPETITION CALENDAR [CR]

The international competition calendar of each discipline is organised in four (4) levels:

	Type of competition	Competition
Level 1	ICF competition	ICF World Championships
Level 2		ICF World Cups
Level 3		ICF World Ranking competitions
Level 4	<ul style="list-style-type: none"><li>• International competitions</li><li>• Masters or open competitions</li><li>• Invitational competitions</li></ul>	

Only a National Federation, associate member, or a continental association of the ICF may apply for a competition to be entered into the ICF calendar.

A calendar application for an international competition level 1 and level 2 is outlined in the ICF statutes.

■ ■ ■ A calendar application for an international competition level 3 (if applicable) and level 4 can be made by the following process:

1.2.4.a A calendar application is made directly into the ICF database;

1.2.4.b The deadline for calendar applications for international competition level 3 is First (1<sup>st</sup>) September the year before the competition;

1.2.4.c The deadline for calendar applications for international competition level 4 is three (3) months before the competition.

■ ■ ■ Each National Federation must ensure that their athletes, team officials, as well as the National Federation itself, carry appropriate health, accident, and personal belongings insurance.

The first year an athlete can compete in an ICF competition (level 1 to 3) or on international competition (level 4) is the year of their 15<sup>th</sup> birthday.

An athlete starting from the year of their 13<sup>th</sup> birthday can compete in an international competition (level 4) in a specific age group event with a suitably adapted competition format/rules defined by the HOC.

### CONSTRUCTION

[PR]

The deck construction may not be higher on any horizontal point than the highest point of the front edge of the first cockpit.

All boats must be built symmetrically upon the axis of their length.

No foreign substance may be added to the surface of the boats which can give the athlete an unfair advantage. The use of hull lubricants is not permitted.

No part of the boat (including the seat and the footrest) may have moving parts which can be used to help propel the boat in a way which would give athletes an unfair advantage (approved existing moving seat systems already in use are accepted).

For a boat design to be eligible for international competitions the same boat design must have passed an official boat control at the World Championships or at World Cups. After CSPC approval and provided that the boat is available in the commercial market it can be used thereafter.

■ ■ ■ ■ Innovations in equipment including, but not limited to boats, related equipment and clothing, must meet the following requirements before they are allowed for use in ICF International Competitions, including World Championships and Olympic Games:

If it is judged to meet the above conditions and is approved for use, it must be readily available for all athletes by 1st of January of that year to be authorised for use at international competitions. Crews with unapproved innovations will not be allowed to compete. The ICF CSPC has the sole authority to decide all matters under this rule.

■ ■ ■ ■ A boat or an athlete may be equipped with a device which provides real time feedback on performance for use by television or sport presentation. The device may be used by the athlete for analysis following a race but in no circumstances may the device be used to provide real time feedback to the athlete during a race.

## ■ ■ ■ ■ KAYAKS

[PR]

The composition of a crew, which has qualified for semi-finals or for the final, must not be changed.

For races of more than 1000 meters, heats should not be held, and all boats taking part should start simultaneously.

Should the width of water or other conditions not permit a simultaneous start, starts at regular intervals should be permitted.

## CHAPTER 8 - FIELD OF PLAY

### ■ ■ ■ COURSE (1000M - 500M - 200M)

[SR]

■ ■ ■ ■ The standard ICF course for International Competitions, Continental Championships, World Championships (nine (9) lanes) and for Continental Olympic Qualification and Olympic Games (eight (8) lanes) must provide fair and equal racing conditions for all crews racing in separate, parallel lanes over the distances. For Olympic Games, Olympic Qualification, World Championships and World Cups, the standard course must be provided with technical installations and equipment as defined in the “ICF Technical Manual for Canoe Sprint Championships”.

■ ■ ■ ■ In order to be classified as a championship course, full details of the course concerned must be submitted in writing to the Technical Chair by the applicants. The course must be inspected at the cost of the federation concerned and approved by experts appointed by CSPC. The ICF Board of Directors may lay down special requirements for World Championship, Olympic Games, Olympic Qualification, Regional Games or World Cups. The ICF Board of Directors (or the CSPC) may grant exceptions where necessary for competition course in multi-sport competitions or other championships.

### ■ ■ ■ LAYOUT

[SR]

■ ■ ■ ■ At least 5 hours before the start of the races the racing course must be measured and marked by buoys and/or flags. The length of the course and all intermediate distances must be measured by an independent qualified surveyor and an accurate, certified plan must be held by the HOC. This plan should be available for inspection by Chief Official at any time.

■ ■ ■ ■ Both the start and finish lines must be marked with red flags and red buoys at the points where lines intersect the outer limits of the course. The start and the finish lines must be at right angles to the course.

■ ■ ■ ■ The standard course consists of up to nine (9) lanes. Each lane must be at least nine (9) m wide, straight and without any obstacles.

8.2.3.a The depth of the water in the entire course must be at least two (2) metres;

8.2.3.b The lanes must be marked with buoys or floats. The distance between the buoys cannot be more than 25 m;

8.2.3.c The last buoys must be marked from № one (1) to nine (9) and zero (0). The numbering goes from the left to the right with the number placed on the buoy in such a way as to be clearly visible from the finish tower;

8.2.3.d When there is television coverage of the competition, the lane numbering may be in the opposite direction - from right to left, so that the list of athletes and their lanes shown on the television screen match the appearance of the races to be televised;

8.2.3.e The numbered buoys (white cubes with black numbers on them) should be fixed no closer than one (1) metre and no further than two (2) metres behind the finish line;

8.2.3.f The numbered buoys must be clearly visible to the athletes and to be on the corresponding athlete's right-hand side as they pass it;

8.2.3.g The course settings can be variable with the approval of the Competition Committee.

 Heats and the final must be run on the same stretch of water.

■ ■ ■ The start position numbering will be decided by the Chief Official. It will be announced at the TLs meeting.

■ ■ ■ For races of more than 1000 meters, turning points are permitted. The radius of each turn must be at least 31.5 meters (180° turn is the width of seven (7) lanes).

■ ■ ■ The turning points are to be marked by at least six (6) flags. The flags must be diagonally divided, with one half (1/2) in red and the other half (1/2) in yellow.

■ ■ ■ The red flags on the finish line should be placed as much to the outside as possible in order to get the widest feasible finish line.

■ ■ ■ All starting pontoons are to be removed if necessary.

[PR]

■ ■ ■ ■ Any athlete named in the final entry of his/her country may substitute in any other event.

■ ■ ■ ■ Notification of alterations of the entries must be given in written form to the Chief Official up to the Team Leaders meeting.

■ ■ ■ ■ The Chief Official may in exceptional circumstances accept late alterations. Late alterations must be given in a written form to the Chief Official at least one (1) hour before the first race of the morning or afternoon session.

■ ■ ■ ■ The withdrawal of an entry is considered final, and the same athlete/crew is not allowed to compete in any other events of the competition. Entry fees will not be refunded.

■ ■ ■ ■ If an athlete is unable or prevented to compete (e.g., proven illness or injury) in a crew boat the Competition Committee may allow the other eligible athlete(s) from that boat to be entered in other events.

## ALTERATION AT THE ORDER OF EVENTS [PR]

The sequence of races given in the invitation, and the intervals between the races as given in the Competition Programme, are binding on the organisers.

Alterations cannot be made unless the respective Team Leaders at the Team Leaders Meeting give their consent.

The HOC must provide for boat control two (2) certified weighing and measuring devices. Pre-race boat control is a self-boat control.

The athletes are responsible to ensure the boats conform to the technical requirements for the competition as per Chapter 3.

No alterations in boats are permitted after the measuring and weighing and before the competition has taken place.

Any attachments consisting of water absorbing material must be absolutely dry or they will be removed for the weighing.

## BOAT AND PERSONAL NUMBERS [SR]

All boats should carry a boat number. It is a vertical plate, made of non-transparent material, marked with black numbers on a white background.

The plates should be placed on the centreline on the afterdeck or thwart.

The size of the number plate should be 18 x 20cm. The numbers on the plate must be on each side and must measure 15 cm in height and 25 mm in thickness.

The personal (bib) numbers will be provided by the HOC and must be placed on the back and/or on the front of the athlete as required by the HOC. The title or main sponsors name may be shown on the front side with the personal numbers.

## CHAPTER 10 - COMPETITION

### MEANS OF PROPULSION

[SR]

Kayaks must be propelled solely by means of a double-bladed paddle.

Canoes must be propelled solely by means of a single-bladed paddle.

The paddles must not be attached to the boat in any way.

### START

[SR]

The Start Line must be marked by two (2) red flags and two (2) red buoys.

Athletes must be on the water at the starting area, not less than three (3) minutes prior to the specified start time of their race. The starting area is defined as the area of water within 100 metres of the Start Line.

Two (2) minutes before the defined starting time the competing boats must be in line with the allocated race lane.

The start must commence without reference to any absentees.

When signalled by the Starter, the athlete/ crew will take the start position designated so that the bow of the boat is on the start line. In case of an automatic starting system the bow of the boat must be completely in the start machine. When all boats are properly aligned, the Aligner/Course Umpire will then raise a white flag.

If the Starter is not satisfied with the line-up, he/she will call "STOP" and begin the start procedure again.

The Starter will start a race when he/she is satisfied that everything meets with his/her approval.

The starting command will be "Ready - Set - Go".

10.2.8.a At the "Ready" command the athletes begin their preparation to paddle;

10.2.8.b At the “Set” command the athletes must not paddle forward, or this action will be deemed to be a false start. The boat must not move forward at this point in the starting procedure;

10.2.8.c The Starter when satisfied with the athletes positioning and attention will say “Go” (or shot or loud sound).

■ ■ ■ ■ The athletes must only react to the start command/signal “Go” and are not permitted to anticipate the start. The athletes can paddle only upon hearing the starting signal/command “Go”.

■ ■ ■ ■ In the case of a false start, the Starter must immediately give a loud buzzer sound signal. On hearing this signal all athletes must stop paddling and follow the Starter’s instructions for a new start.

■ ■ ■ ■ Before the new start, the Starter must identify the offending athlete(s) and boat(s) making the false start and give them a warning.

■ ■ ■ ■ In the case of a second false start by the same athlete/crew, the boat will be disqualified (DSQ) from the race and must leave the starting area and the course immediately.

■ ■ ■ ■ The Starter may also recall athletes for a new start in the case of any unforeseen circumstance (for example - a malfunction of the starting equipment). In such a case the same powerful sound signal as for a false start must be given.

■ ■ ■ ■ If a malfunction of the starting equipment was caused through a boat making a false start, as in 10.2.10, the athlete/crew must be given a warning, as in 10.2.13, even though that boat may not have crossed the start line. If the malfunction was not the cause of any athlete making a false start, no penalty should be imposed.

■ ■ ■ ■ If an athlete/crew does not start, and has no valid reason approved by the Competition Committee, they will be disqualified for the remaining races of the competition (DNS).

■ ■ ■ ■ An athlete/crew, who arrives too late at the start, should be considered to have voluntarily withdrawn and will be disqualified for the remaining races of the competition (DNS).

■ ■ ■ ■ The Starter will make a written report on any disqualification and forward it to the Chief Official.

## **PADDLING ON THE COURSE**

**[SR]**

In races up to 1000 meters, athletes must keep the whole of their boat within the five-(5) metre wide central area of their lane from the start to the finish of the course. Upon any deviation, the boat must go back immediately to this central area of the lane.

If a boat fails to actively return and/or gains an advantage in the race, the boat may be disqualified from the event (DSQ).

A boat which leaves its allocated lane, must be disqualified (DSQ) from the event.

After receiving a written report from the Course Umpire, the Competition Committee must decide whether any of the athletes concerned may be disqualified or not.

The Competition Committee must make its decision known before the result of the race is announced in such a case.

If there is a capsize the athlete or crew is disqualified (DNF) from the race.

If a paddle is broken, the athlete cannot be provided with a new one.

The Course Umpire has the right to interrupt a correctly started race if unforeseen hindrances arise by using a red flag and a strong sound signal. Athletes must immediately stop paddling and await further instructions.

If a race is declared null and void, no change of the composition of a crew is permitted for the new start.

## **PACING AND WASH RIDING**

**[SR]**

Taking pace or receiving assistance from boats not in the race or by any other means is not permitted.

When a race is in progress crews not taking part in the race are strictly forbidden to proceed over the whole or part of the course, even outside the marking buoys.

 Races of more than 1000 meters distance:

10.5.1.a Athletes may deviate from their lane, providing they do not impede other athletes;

10.5.1.b When a race is run on a course with turning points, these must be passed to port (e.g., in an anti-clockwise direction);

10.5.1.c An athlete will not be disqualified for touching a turning point buoy, In making a turn, the boat may follow as closely as possible the course as marked by the buoys at the turning points;

10.5.1.d If there is a capsize the athlete or the crew is eliminated (DNF) from the race if they are not able to get in the boat;

10.5.1.e If equipment is broken during the race (e.g., paddle, boat, rudder, etc) athletes can receive help safely to fix the equipment or to get a replacement.

 Group racing and overtaking

10.5.2.a When a boat is overtaking another boat, it is the duty of the overtaking boat to keep clear of other boat at all times;

10.5.2.b When athletes are racing in a group of boats it is the duty of all the athletes in the group to keep clear of other boats at all time avoiding collision. This rule applies to any manoeuvring within the group.

 Failing to follow the correct course:

10.5.3.a Should an athlete have failed to follow the correct course of the race (for example missed a turning buoy) the athlete has broken the racing rules and will be subject to a penalty;

10.5.3.b If the Course Umpire believes the athlete has gained no positional advantage on other athletes: A time penalty of 10 seconds will be given to the offending athlete;

10.5.3.c If the athlete has gained a major advantage and obtained positional places in the race by not following the course: A disqualification (DSQ) will be imposed;

10.5.3.d Should a buoy be missed as a result of a collision in group racing during a turn this will be investigated and the boat that caused the collision will be penalised or disqualified (DSQ), The athlete who missed the buoy due to collision will not be penalised.

#### Collision or damage

10.5.4.a A collision will be an event where an athlete or any part of their boat or paddle touches another athlete's boat or paddle in a way that disadvantages the athlete.

10.5.4.b A collision can happen at any time within the group and is applicable for all parts of the course.

10.5.4.c Any athlete who is considered by a Course Umpire or Chief Official to have been responsible for a collision, or who damages the boat or paddle of another athlete or unnecessarily deviates from the direct racing line or deliberately blocks or impedes the path of an athlete may be penalised or disqualified;

10.5.4.d If it is considered that other paddlers have only had some minor disadvantages compare to other athletes as a result of the incident the responsible athlete will get a time penalty of 15 seconds;

10.5.4.e If it is considered that the incident has caused other paddlers a major disadvantage the penalty will be disqualification (DSQ) of the offending athlete;

10.5.4.f Time penalties as decided by the Chief Official are not subject to appeal.

#### Lapped boats

10.5.5.a Athletes who have been lapped will end their race before they have completed the full race distance. The point where they will end their race is when next time, they cross the finish line.

10.5.5.b They must not interrupt or block boats that overtake them. They are not allowed to wash ride on the boats that overtake them.

10.5.5.c Their current rank will be recorder and included in the results. No time will be taken.

#### Last Place knock out

In long distance races with circuit laps the lowest positioned athlete at the end of each lap will finish the race on that lap. The position of that athlete will be recorded in the results but with no time and will be listed above any lapped athletes in the race from that lap. That rule applies only for races with 10 or more boats on the start line.

#### FINISH

[SR]

   The boat has finished the race when its bow crosses the finish line with all crew members in it.

   The Finish Line Judges will determine the result of the competition based on the order of the boats arriving.

   If two (2) or more boats cross the finish line at the same time, they get the same classification in the final ranking. In case of a dead heat finish for any position, which determines the advance to the next phase of the competition, the following rules will apply:

10.6.3.a Whenever there are sufficient number of lanes available in the next phase of the competitions, a drawing of lots will determine to which race these boats will advance. It is also possible to use lane number zero (0) or 10;

10.6.3.b Where there are not enough lanes available there will be a re-race between the boats involved after the last race of the day, or half-day programme or drawing lots. The decision will be made by the Chief official;

10.6.3.c In case of a dead heat in a re-race, drawing of lots will determine the outcome.

■ ■ ■ ■ If the photo finish confirms a dead heat of two (2) or more boats at the finish, the final ranking will be determined according to the best place achieved by those boats. E.g., two (2) or more may be recorded as first, second, third etc.

## ■ ■ ■ ■ DISQUALIFICATIONS

[PR]

■ ■ ■ ■ Any athlete who attempts to compete in a race by any other than honourable means or who breaks the racing rules, or who disregards the honourable nature of the racing rules will be penalised or disqualified from the race concerned (DSQ).

■ ■ ■ ■ All penalties or disqualifications must be confirmed by the Competition Committee in writing immediately, giving the reasons. The Team Leader of the athlete/team must acknowledge the receipt on the notice copy.

■ ■ ■ ■ Failure to deliver the copy confirmation of the disqualification to the Team Leader does not invalidate the disqualification.
